

In-network for dialysis services with major insurance providers

Ensure you receive dialysis services from a company that is in-network with your health insurance plan. If you have insurance coverage with a major health insurance provider, your dialysis services are most likely in-network with Fresenius Kidney Care.

Come join us!

At Fresenius Kidney Care, we are dedicated to helping people with kidney disease lead fuller, more active, and vibrant lives. We are committed to providing the highest quality of care to every patient, every day.

Choose Fresenius Kidney Care for your dialysis services

Talk to your doctor to ensure your dialysis services are in-network with your insurance plan. When companies are in negotiations or are out-of-network, it may cost you more money.

Fresenius Kidney Care accepts major insurance plans.

Some plans have a preferred network of healthcare professionals, hospitals, and pharmacies.

In-network

You'll generally pay less for services because rates have been negotiated with the insurance company.

Out-of-network

Services may be covered at a lower rate or not at all, which costs you more money out of pocket.

ARE YOUR DIALYSIS SERVICES IN-NETWORK?

Talk to your doctor about receiving dialysis services that are in-network with your plan or visit [FreseniusKidneyCare.com/Insurance](https://www.freseniuskidneycare.com/Insurance) to learn more.

We will help you feel your best

IN-CENTER

AT-HOME

Choose the treatment option that best fits your lifestyle

Over 2,600 dialysis centers across the country

Benefits of home dialysis

- /// Schedule your treatment around your life
- /// Enjoy fewer food and drink restrictions
- /// Take fewer medications
- /// Make fewer trips to the dialysis center
- /// Keep the social, school, or work life you love

We are here for you!
