

# Your life. Your health. Your care.

## Get connected and thrive with PatientHub.

Make healthier choices and thrive on dialysis with PatientHub. Now, you can easily check your health information and treatment progress while at your dialysis center or from the comfort of home.

### PatientHub can help you stay active in managing your care.

#### Access lab results and see trends

Access your lab results and trends so you can be empowered with the information you need, where and when you need it.

#### Access the online community

Ask questions, share stories, and learn more from others sharing similar experiences with kidney disease through the Kidney Care Community.

#### View medications

Access information about each of your medications, including the name of your medication, your prescribed dosage, and how to take your medication.

#### View historical health data

Take control of your health and see how your historical health and treatment data, including vitals, have changed over time.

### Get started using PatientHub today.

- Visit [FreseniusKidneyCare.com/PatientHub](https://www.freseniuskidneycare.com/PatientHub) or download the mobile app from the Apple App Store or Google Play Store.
- Your care team will start your registration for you. All you'll need to do is provide your email address.
- You'll receive an email to confirm your account. It's important that you click the link to confirm your account within 72 hours.
